

FACT

**LET'S TALK
ABOUT SCHOOL
MATTERS!!!**

EVIDENCE

OPINION

LEARNING

OBJECTIVES

By the end of the presentation, should be able to...

Use complete sentences to express opinions, agreements, or disagreements.

Practice functional phrases (e.g., I think..., In my opinion..., I agree with..., I disagree because...).

Improve pronunciation, intonation, and confidence when speaking in front of others.

- Use school-related vocabulary (uniforms, rules, cafeteria, recess, homework, etc.).
- Use modal verbs (should / shouldn't, must / mustn't) to express rules or opinions.

INTRODUCTION

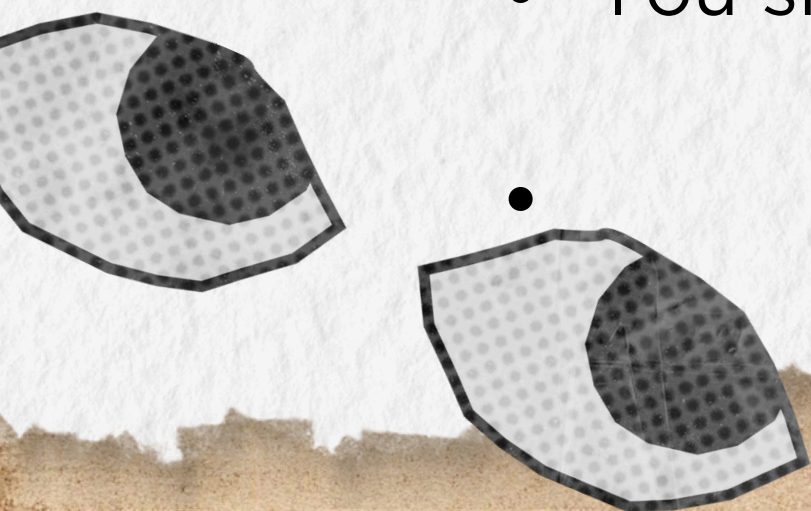

We will do a school meeting role-play. That means we will pretend to be in a big meeting at school, like an assembly.

In this activity:

- Each of you will play a role (for example: student, teacher, parent, principal, cafeteria worker...).
- We will talk about a school problem (like homework, uniforms, recess, or food in the cafeteria).
- Everyone must speak in English and share their ideas.
- You should listen carefully to others and respond politely, even if you don't agree.

At the end, you will try to find a solution together.

The different roles

Principal – the leader of the meeting, keeps order, makes the final decision.

Teacher – talks about classwork, homework, or rules.

Parent – shares concerns about their child's learning, safety, or happiness.

Student – wants changes (less homework, more recess, etc.).

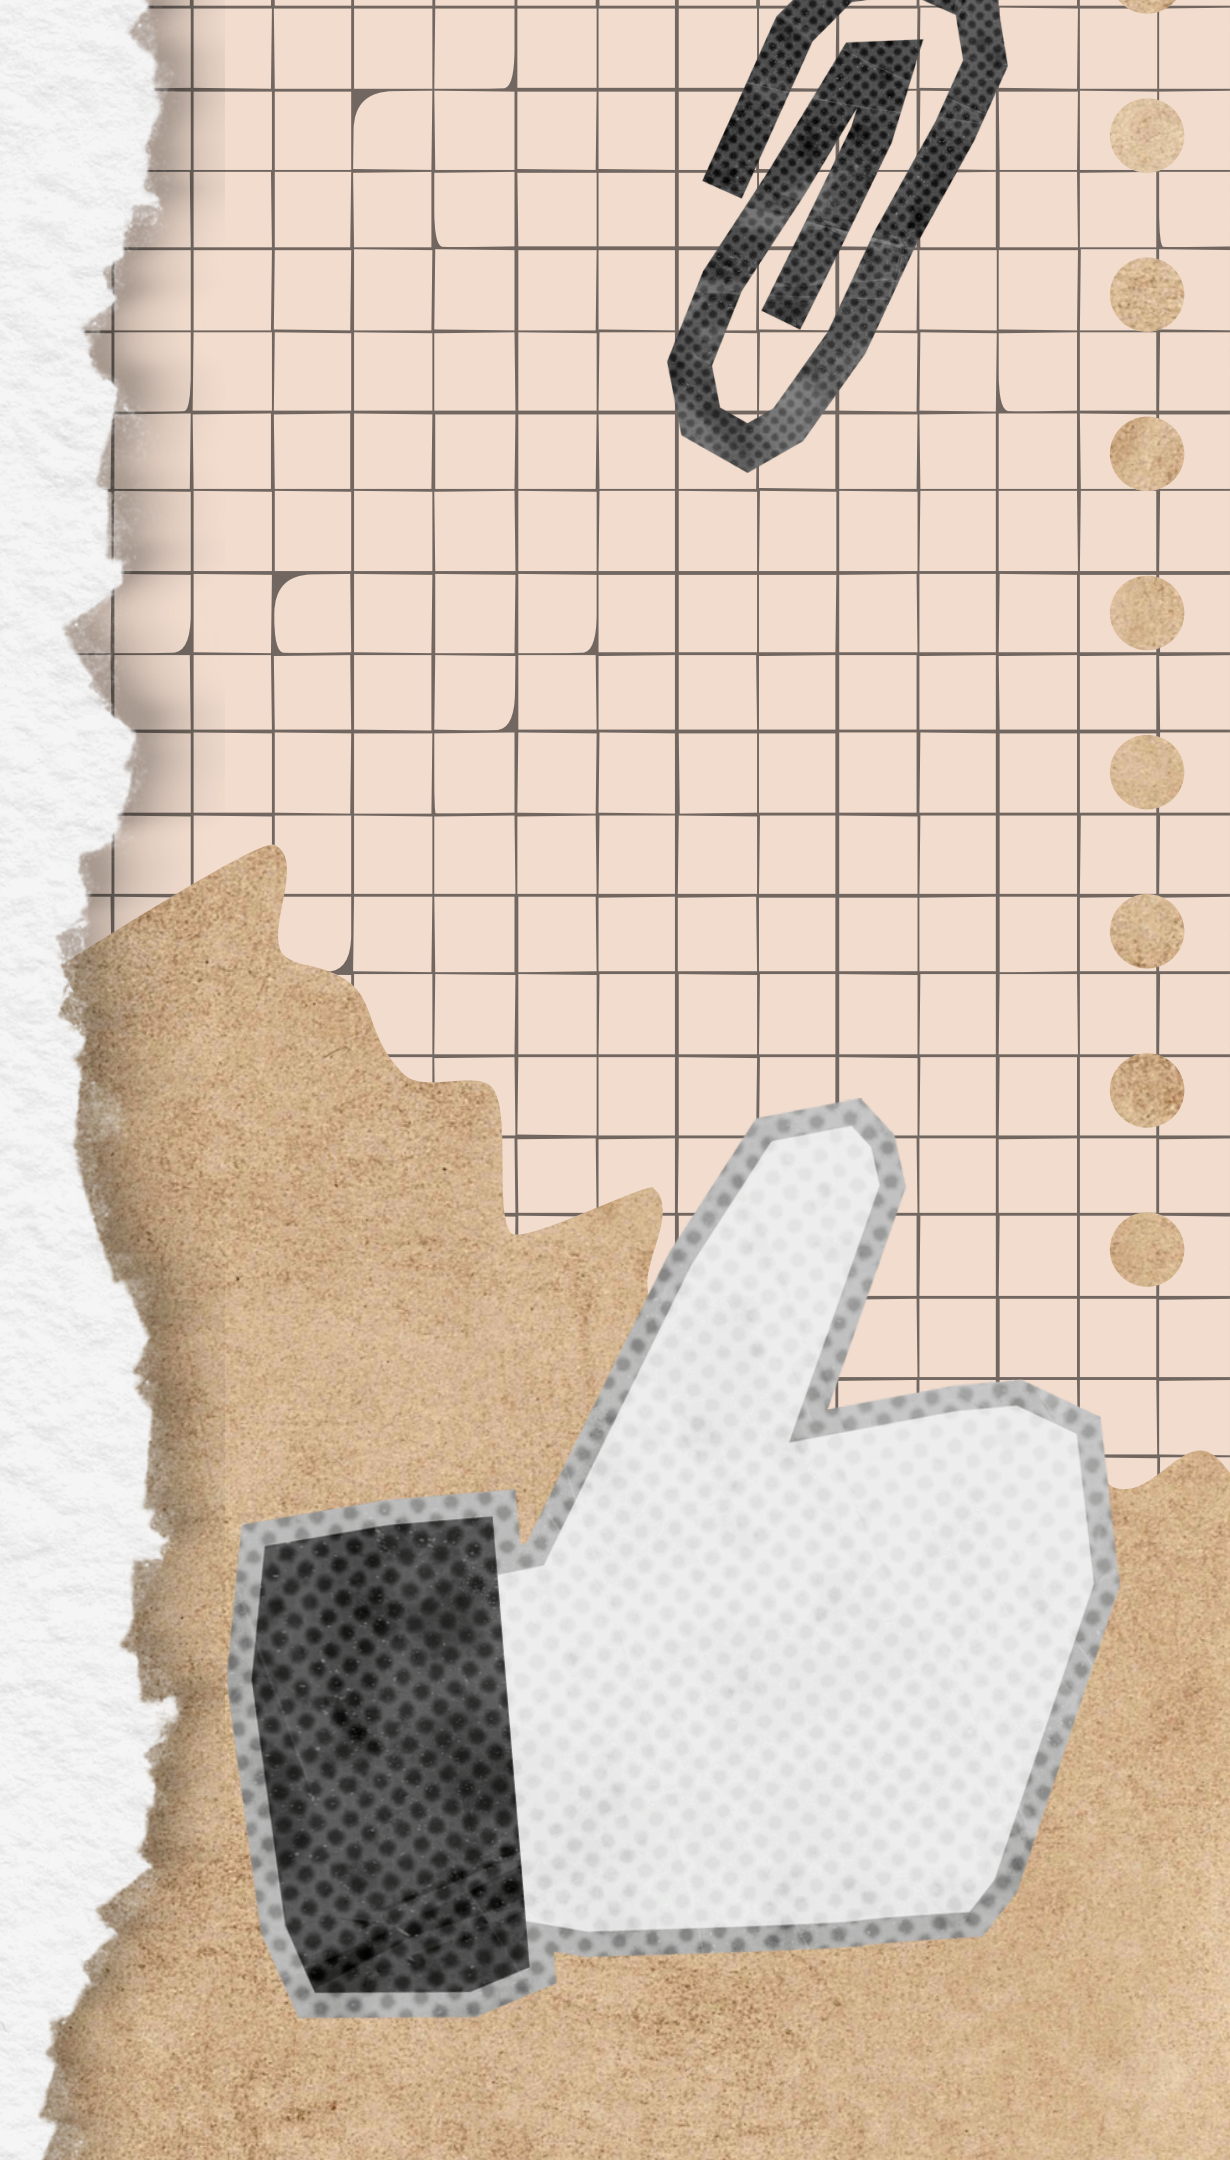

TES- works with students and teachers to assure a good functioning inside as well as outside the class.

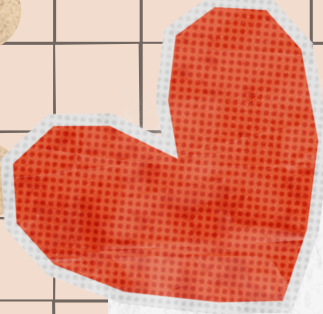

Presenter- Presents the team and topic. Summarises the opinions of each team member and highlights the solutions.

THE STEPS

- Make a team of 5/6 students.
 - Choose your topic of discussion.
 - Choose your role.
 - Work individually on your opinions. **Each opinion should have a justification.**
 - Get into the team to share your ideas. Try to find a solution together.
- 

You will have **4 periods** to do this project.

The due date is **Friday 12th September**.

Each of you is expected to speak for **at least 1 minute**.

Each team will be given 7 minutes for the school assembly discussion.

You are allowed to have notes for this project. But remember this a speaking activity not a reading one.

You will be evaluated both individually and as a Team!

**Information
about the
project!**

The topics are:

Should students be allowed to decide some classroom rules ?

Should kids of elementary schools and early secondary school have access to social media?

Should students be allowed to use AI to do their homework and do their projects?

Are some video games, TV shows and movies too violent for elementary kids?
